Candidate's Name	Valdery Moura Junior, MS, MBA, PgMP, PMP, PMI-RMP	
Role Running For	Executive Vice President	

Statement of Purpose

I have been a member of PMI Mass Bay Chapter since 2011 and a PMI volunteer leader since 2004. I'm currently serving as Executive Vice President with PMI Mass Chapter and I'm running for my second term. In addition to my experience on the Mass Bay Chapter, I had the opportunity to serve for five years as an elected board member with the PMI Distrito Federal Chapter, Brazil; two years as a leadership council member with the PMI Information Systems Community of Practice (PMI IS CoP); and three years as an advisor with the PMI Communities of Practice Member Advisory Group (CoP MAG) – where I was honored with the PMI Community of Practices Tiger Team Excellence Award 2013. My contribution also extends to the formers PMI IT& Telecom SIG and PMI GovSIG.

I am confident that my years of experience within PMI Global and Mass Bay Chapter provide me with the necessary seniority for this role. If elected for my second term as Executive Vice President, it will be my primary goal to continue working to enhance the development and implementation of our chapter's operations strategy and processes. I want to ensure that all operational programs are bringing value to our members. I want to keep bringing new ideas to the Board of Directors and work as a team to get them accomplished.

Biographical Information

I am a program manager and computer scientist with expertise in the fields of Project/Program Management, PMO setup and operation, Process Improvement, Software Development and Data Operations. I have extensive experience in leadership positions leading both direct reports and cross-functional teams; managing multiple services and projects; managing multimillion budget; and interfacing with C-level executives.

I am a PhD candidate in Management. My research is focused on data-driven healthcare management. My major is Computer Science. I hold an MBA with concentration in Strategic Administration of Information Systems and a Master of Science degree in Knowledge Management and IT. Additionally, I hold the MIT Sloan's Executive Certificate in Management & Leadership and I am alumnus of the PMI Leadership Institute Master Class 2010.

I received my PMP back in 2005, my PMI-RMP in 2011 and my PgMP in 2013. I hold also other non-PMI

certifications including CSM (Certified ScrumMaster), Professional Scrum Master I and II, ITIL Practitioner SLM/SLA, ITIL Continual Service Improvement (CSI), and PMO-CP (Value Ring).

Currently I work at the Partners HealthCare's Enterprise Research Infrastructure and Services. There, I lead a team of Software/Big Data engineers responsible for developing a biomedical device data lake and commons while leveraging DevOps principles and Agile Project Management.
